

COVID- 19 TESTING OPTIONS

The following is a list of area testing centers. We will do our best to update as we become aware of changes but feel free to call the number to confirm information prior to visiting the site.

Interstate Center

1106 Interstate Dr, Bloomington

Administered by Reditus Labs.

Open Daily 9AM-5PM

This is a self-swab site. Parents will be expected to administer the test for children who cannot do it themselves.

****New testing procedures for this site below****

DRIVE-THRU COVID-19 TESTING SITE LOCATED IN BLOOMINGTON

Reditus Laboratories from Pekin, IL operates the drive-thru COVID-19 Community Based Testing Site at the Interstate Center. Reditus processes the tests and transmits the results to a state call center. A self-swab test is used; each person swabbing is instructed and monitored by on-site staff. Testing is free and is not limited to McLean County Residents.

Pre-Registration: Go to www.testdirectly.com/mclean, create a new account (or login if you have one). *Note: Every person being tested has to use a separate email account or results will be overridden. If registering multiple persons it works best to use a tablet, computer, or separate smartphones.* Following account set-up, a confirmation email will be sent, click that link and begin registering. Answer the applicable questions; when you get to *Payment Source - select Free.*; then click *Place Order*. A confirmation screen will pop-up and will also be emailed to you. *You will need this document when you check-in at the site to test.* Electronic registration is available on-site but will take longer.

On-Site Procedure: Please wear a mask and follow the directions of the testing staff. Patients arriving by public transportation will be directed inside the building. When it is safe (moving vehicles) staff will work with people that are on foot. The Connect Transit Shuttle Bus operates from the West Side Walmart to the testing site on Tuesdays, Thursdays, & Saturdays from 10:00-11:30 am and 2:00-3:30 pm.

Location and hours: The drive thru testing site is located at the Interstate Center/ McLean County Fair Grounds, 1106 Interstate Dr, Bloomington. Their hours are daily from 9 am - 5 pm. They will be closed on holidays and will close early or open late in the event of severe weather.

Results: You will receive a sticker after testing with an Order ID (top number) and a Key. You can go to www.testdirectly.com, select the results tab at the top of the page, and enter this information to see your results when they become available, usually a couple days. You can also log into your account, view them, and screen print them if needed. All individuals tested will also receive a call from the state contracted call center with their results in 3-7 days, that number is 1-888-297-7208. If you receive your results online and the COVID virus was detected please stay home and isolate until you receive further instructions from the call center or another medical professional.

Note: First responders, medical personnel, long term care staff, and people that are being tested for upcoming medical procedures need to tell the staff at both check-in and the testing station that they are in one of these categories so their results can be marked stat.

IF YOU ARE EXPERIENCING A MEDICAL EMERGENCY, CALL 911.

Updated 8/29/2020
