

Dear Parent/Guardian,

We are so excited that your child is about to join us here at Lexington Elementary School! We want to help make this transition as smooth as possible for you and your child. Hopefully this information will answer some of your questions about the State of Illinois health requirements for kindergarten students.

- **Physical exam:** The physical must be done within one year prior to your child's first day of school. This "Child Health Examination" form must be on file in the elementary school office prior to the start of the school year. The parent/guardian needs to answer the questions in the top portion marked "Health History" and sign your name.
- **Required immunizations:** All immunizations must be documented on the "Child Health Examination" form. If your healthcare provider gives a computer print-out of your child's shots, please ask for a signature.
 - 4 or more doses of DTP/Dtap
 - 4 doses of Polio
 - 2 doses of Measles/Mumps/Rubella (MMR)
 - 2 doses of Chicken Pox (Varicella)
- **Lead Screening:** Lead screening is a required part of the health exam for children age 6 years or younger prior to admission to Kindergarten.
- **Vision exam:** The vision exam must be done by a licensed optometrist or ophthalmologist. The Eye Examination Report must also be on file in the elementary school office prior to the start of the school year.
- **Dental exam:** The dental exam form is due by May 15th of your child's kindergarten school year. The dental exam must have taken place within 18 months prior to the May 15th deadline. However, if the dental exam form is completed, it may be turned in along with the child's other health records at the start of the school year.

Please note that **ALL MEDICATIONS** to be taken at school must have written authorization by you and your healthcare provider: this includes all over-the-counter medication and prescription medication. An adult needs to drop all medication off at the office. Please bring only **swallow or chewable** over-the-counter meds. (**No liquids, please.**)

If you have questions about immunizations or other health related requirements, please call the school at 309-365-2741 and talk with Nurse Pam.
